NEW TOOLS

Speed, Time, Distance- GT3 Cup Cars Set World Record!

Sir Tools congratulates and is a proud sponsor of team "Glenn Yee Motorsports" setting new world records. Two GT3 Porsches @ Thunderhill Raceway, California: #64 and #26, each hammering the field for 25 hours, 622 laps, 1866 miles with over 5000 passes, posting a 1st & 2nd place victory, respectively.

Good Luck @ Daytona, 24 hours!

From road to track, SIR TOOLS shines with over 30 years of expertise in manufacturing and designing special tools!

HO 115-WB

Honda / Acura Crank Seal Set:

This Crank Shaft oil seal installation kit was specifically designed to aid the professional Honda / Acura Technician with the crucial task of proper and easy, harmonic balancer oil seal installation. The press cup is of a high quality anodized aluminum which will not damage the oil seal or engine. The threaded step bolt screws into the crank bolt hole. The press nut and washer provides the technician with an even and straight pressing force, seating the new oil seal into the engine case every time.

Suggested List Price \$59.95

ST 9000 A

Anti-Theft Radio Key Kit:

See World Exclusive Tool Kit #: ST 9015

This 6-pack wallet style O.E. radio removal kit is specially designed to remove all "Anti-Theft" radios from its mounting bracket. These O.E. anti-theft radios are found on late model to current 2004; VW, AUDI, Mercedes, Porsche, BMW, and many FORD based models.
